Adjust PDF Views

While reading a PDF file, you can enhance your PDF viewing with the following features:

- [Tabs Reading Mode](#)
- [Page Display Mode Settings](#)
- [Resize Pages to Fit the window](#)
- [Adjust Screen Brightness](#)
- [Night Mode](#)
- [Text Reflow](#)
- [Screen Lock](#)
- [Crop Mode Settings](#)
- [Zoom In and Zoom Out Settings](#)
- [Pan and Zoom PDFs](#)

Tabs Reading Mode

Tabs Reading feature enables you to open multiple PDF documents in a single instance. To switch to Tabs Reading Mode:

1. Launch the Complete PDF Viewer demo;
2. On the file selector pane, tap  at the top-right corner;
3. Tap **Yes** in the pop-up dialog to switch to tabs reading mode.

Page Display Mode Settings

1. On the document pane, tap **View** on the toolbar;
2. Choose an option:
 - **Single:** Display one page at a time. You can swipe left or right to navigate through pages.
 - **Continuous:** Display the pages in a continuous vertical column. You can swipe up or down to navigate through pages.
 - **Facing:** Display two pages side by side. You can swipe left or right to navigate through pages.
 - **Cover:** Display the cover page separately while in facing mode. You can swipe left or right to navigate through pages.

Resize Pages to Fit the Window

1. On the document pane, tap **View** on the toolbar;
2. Choose an option:
 - **Fit Page:** Resize the pages to fit entirely in the document pane.
 - **Fit Width:** Resize the pages to fit the width of the window. Part of the page may be out of view.

Adjust Screen Brightness

By default, Complete PDF Viewer will adjust the brightness of the screen based on the system's brightness levels. To adjust the screen brightness manually:

1. On the document pane, tap **View** on the toolbar;
2. Tap  to disable Auto-Brightness;
3. Drag the slider to adjust the brightness.

Night Mode

Night Mode allows easier reading in low light conditions by inverting black and white in your documents, which helps to relieve eye strain as well as save the device's battery. To switch to Night Mode:

1. On the document pane, tap **View** on the toolbar;
2. Tap .
3. If you need to switch back to Day Mode, tap .

Text Reflow

To access the text reflow mode:

1. On the document pane, tap **View** on the toolbar;
2. Tap **Reflow**.

In the text reflow mode, change the settings as desired by doing the following:

1. Tap **A⁺** to increase the font size;
2. Tap **A⁻** to decrease the font size;
3. Tap  to jump to the previous page;

4. Tap  to jump to the next page;
5. Tap  to jump to the navigation panel;
6. Tap  to hide or show all of the pictures in the PDF file.

To exit the text reflow mode:

Tap  on the toolbar at the top.

Screen Lock

Screen Lock allows you to lock the screen in portrait or landscape mode to prevent screen rotating when your device is physically rotated. To lock the screen:

1. On the document pane, tap **View** on the toolbar;
2. Tap **Screen Lock**;
3. Choose one of the options:
 - Landscape: Lock the screen in landscape mode;
 - Portrait: Lock the screen in portrait mode.

If you need to unlock the screen orientation, tap **Screen Lock** again, and choose **Auto-rotate with screen**.

Crop Mode Settings

Crop mode helps you remove unnecessary document margins and extra white space for a better reading experience.

To crop the document margins:

1. On the document pane, tap **View** on the toolbar;
2. Tap **Crop mode**;
3. Do one of the following:
 - Choose **SMART CROP** for auto-cropping;
 - Drag the handle to adjust the crop area, and tap **CROP**. Or Tap **AUTODETECT** to detect the margins, and tap **CROP**.

To restore the cropped margins, tap **Crop Mode** again, and choose **NO CROP**.

Zoom In and Zoom Out Settings

Choose one of the following to zoom in or out of the PDF file:

1. Use the two-finger pinch gesture;
2. Double tap on the screen.

Pan and Zoom PDFs

Pan and Zoom feature adjusts the magnification and position of the view area to match the area in an adjustable rectangle in the Pan & Zoom window's thumbnail view of the page.

To pan and zoom PDFs:

1. On the document pane, tap **View** on the toolbar;
2. Swipe left to find the **Pan Zoom** tool;
3. Do any of the following:
 - Drag the handles of the box in the Pan & Zoom window to change the document magnification.
 - Drag the center of the box to pan across the area you want to see.
 - Click the navigation buttons ⏪ ⏩ to move to the previous or next page.
 - Drag the slider ⏮ —●— ⏭ to increase or decrease the magnification by preset levels.

Navigate and Find Content

Complete PDF Viewer provides multiple ways to help you navigate and find content:

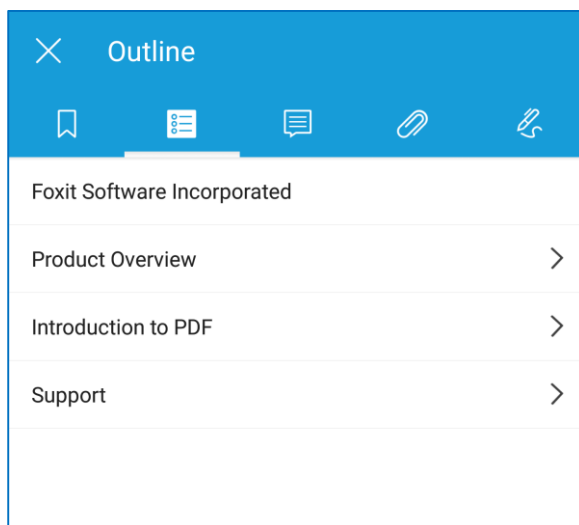

- [Navigate through a PDF File](#)
- [Jump to a Specific Chapter with Outline](#)
- [Jump to a Specific Page](#)
- [Jump to a Designated Location with Link](#)
- [Search and Find Text](#)

Navigate through a PDF File

Swipe up or down to scroll through a PDF file. In Single page display mode, you can swipe left or right to turn pages.

Jump to a Specific Chapter with Outline

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the outline panel;
3. Navigate through the outlines, and tap the outline to jump to the specific chapter.

Jump to a Specific Page

Jump to a Specific Page with Page Number

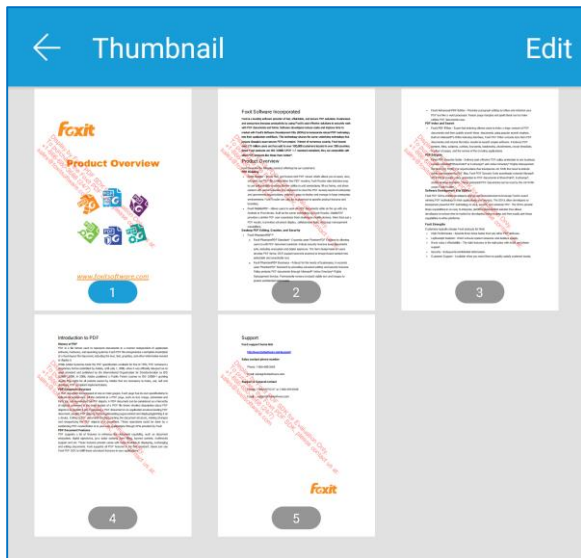

1. On the document pane, tap the page number indicator **1/5**;
2. Enter the page number in the dialog box;
3. Tap **GO**.

Tip: If a PDF file contains logical page numbers, Complete PDF Viewer can display the logical page number on the page number indicator. You can input the corresponding physical page number to jump to the specific page.

Jump to a Specific Page with Page Thumbnail

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap on a page thumbnail to jump to the selected page.

Tips:

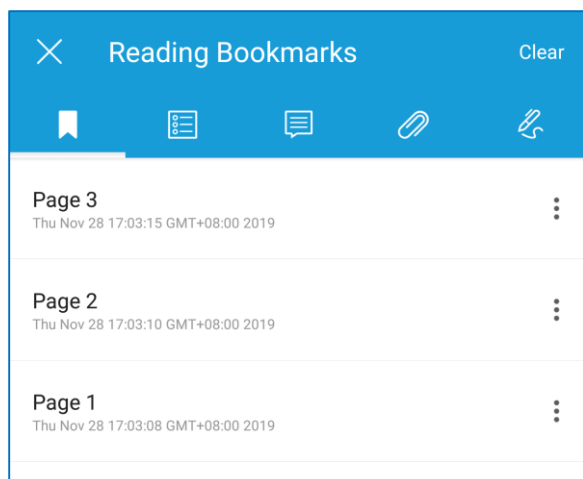

1. Before jumping to the specific page, you can tap  to close the page thumbnail window.
2. If you want to edit the pages, tap **Edit**, and then refer to "[Edit pages](#)" section for details.

Jump to a Specific Page with Reading Bookmarks

If you have saved pages as reading bookmarks, you can jump to that specific page by selecting the bookmark. Steps are as follows:

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the reading bookmark pane;
3. Navigate through the bookmarks, and tap the bookmark to jump to the specific page.

Tip: If you want to bookmark a page, tap  on the toolbar on the document pane.

Jump to a Designated Location

If the PDF file contains links, you can tap the link directly to jump to the designated location in the current document or website.

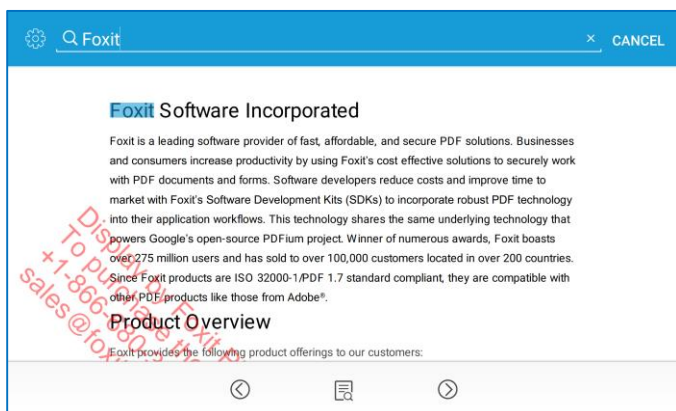

Search and Find Text

Search Text within the PDF file

1. Tap  on the toolbar at the top;
2. Input the text in the search box;
3. Tap **Enter**;
4. Tap  or  to jump to the previous or next search results;

Complete PDF Viewer Demo Guide

5. Tap  to display the search results;
6. Tap **CANCEL** to cancel the search.

Edit Pages

Complete PDF Viewer supports editing page with the following features:

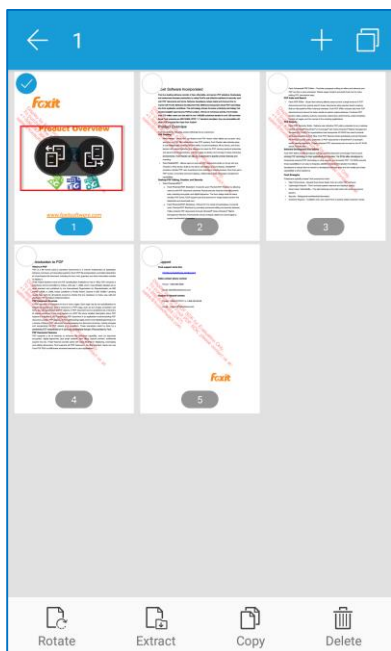

- [Insert pages](#)
- [Extract pages](#)
- [Rotate pages](#)
- [Exchange pages](#)
- [Delete pages](#)
- [Copy pages](#)

Insert pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose a page, tap  to select the PDF file that you want to insert. You can insert PDF pages from files/album/camera. From version 6.4, it supports adding blank pages with custom style.

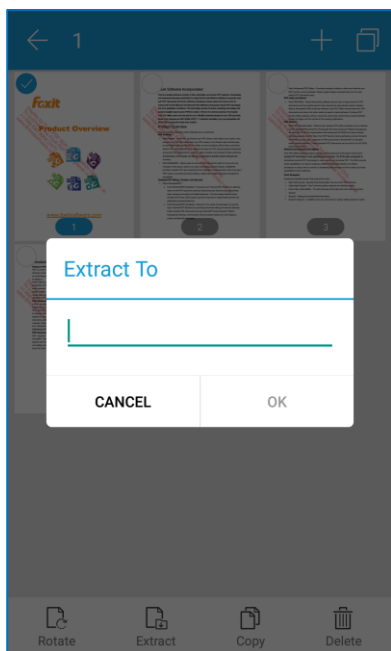

Note: *The added PDF pages will be followed the page you choose.*

Tips: you can swipe left on a page to popup the insert menu, tap  to insert the selected PDF file before the page, tap  to insert the selected PDF pages after the page.

Extract pages

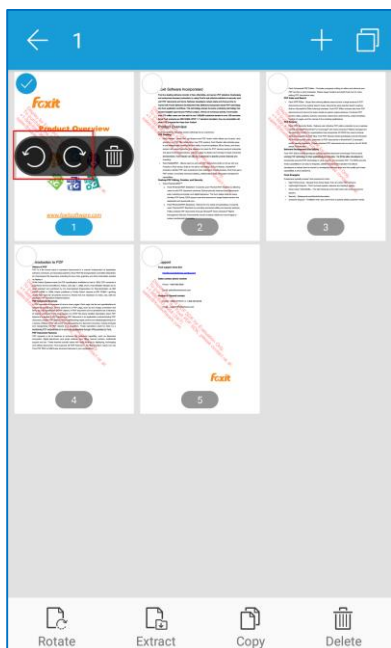

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose the pages that you want to extract;
5. Tap  ;
6. Select a folder where you want to store the pages, and tap **OK**;
7. Input the file name;
8. Tap **OK**.

Rotate pages

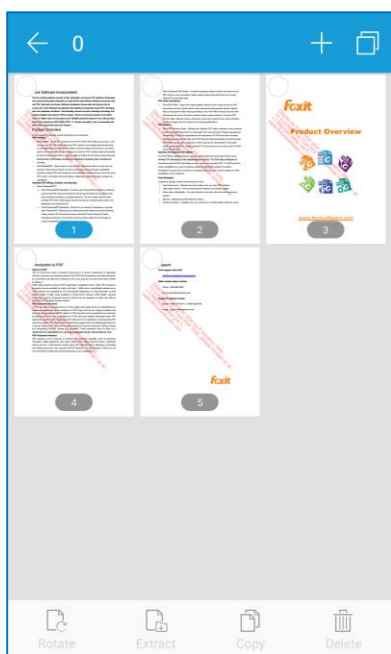

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose the pages that you want to rotate;
5. Tap  to rotate the selected pages clockwise.

Tips: you can swipe right on a page to popup the rotation menu, tap  to rotate the page counterclockwise, and tap  to rotate the page clockwise.

Exchange pages

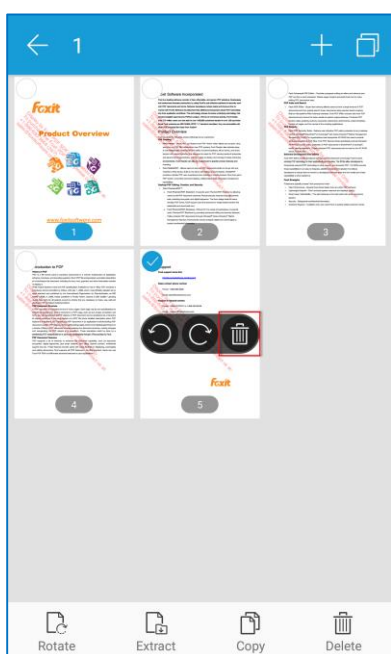

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose a page, drag and drop it to the place as desired.

Delete pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Select the pages that you want to delete, tap , and then tap **OK** on the pop-up window.

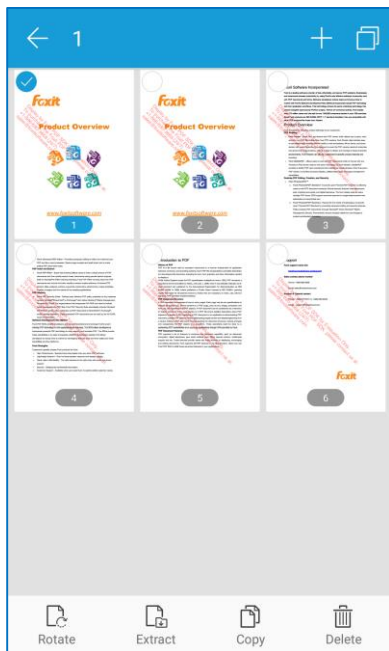

Tips: you can swipe right on a page to popup the delete menu, tap  to delete the page.

Copy pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Select the pages that you want to copy, tap .

Complete PDF Viewer Demo Guide

Annotate

Complete PDF Viewer provides feature-rich annotation tools to help you comment on PDF files. From version 7.1, it supports to play and flatten sound annotations.

- [Add a Text Markup](#)
- [Add a Drawing Markup](#)
- [Add Text Comment](#)
- [Add a Note Comment](#)
- [Add a File Attachment](#)
- [Add a Stamp](#)
- [Add an Image](#)
- [Measure Distance](#)
- [Add an Audio](#)
- [Add a Video](#)
- [Undo and Redo the Last Action](#)
- [Exit the Comment Mode](#)
- [Work on Comments](#)

Tip: On the document pane, tap **Comment**, and long press on the annotations at the bottom bar to see all of the supported annotations. It includes Text Markup tools, Drawing tools, Typewriter tool, Note tool, Attachment tool, Stamp tool, Image tool, Distance tool, Audio and Video tools.

	Highlight text		Oval		Note/Comment
	Underline text		Pencil		Stamp
	Squiggle underline text		Eraser		Attachment
	Strikeout text		Polygon		Image
	Replace text		Cloud		Distance
	Insert text		Polyline		Audio
	Line		Typewriter		Video

Add a Text Markup

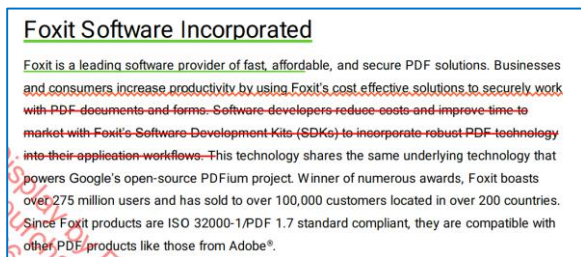

Highlight Text

1. Tap **Comment** on the toolbar;
2. Tap ;
3. Tap  to choose the color and opacity as desired from the toolbar. If you need to keep the tool selected to highlight text continuously, tap ;
4. Drag over text to highlight the selected text.

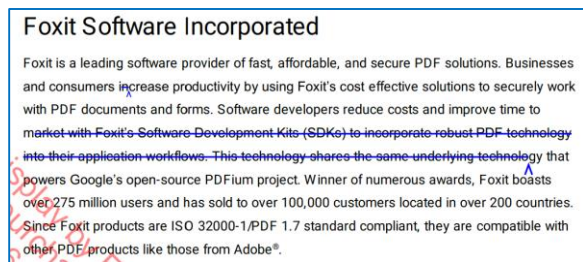

Add an Underline, Squiggly Underline, or Strikeout

1. Tap **Comment** on the toolbar;
2. Long press , and then choose the **Underline** tool , **Squiggly Underline** tool , or **Strikeout** tool  as desired;

3. Tap  to choose the color, linewidth, and opacity as desired. If you need to keep the tool selected to add markups continuously, tap ;
4. Drag over on the document to add the markup.

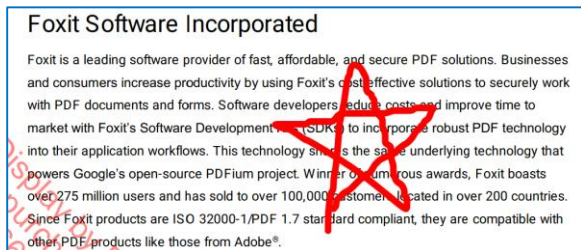

Add a Free-form Shape

1. Tap **Comment** on the toolbar;
2. Tap  ;
3. Tap  to choose the color, linewidth, and opacity as desired;
4. Draw on the document to add shapes as desired.

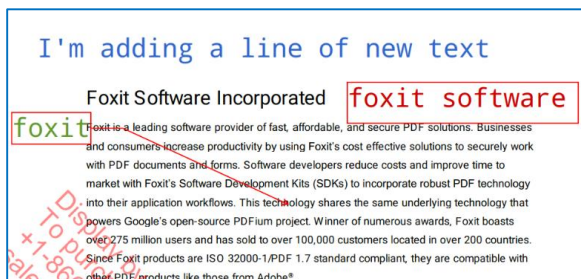

To erase the free-form shape during drawing:

1. Long press , and then choose the  tool;
2. Tap  to choose the linewidth as desired;
3. Drag over the shape that you want to erase.

Add Text Comment

1. Tap **Comment** on the toolbar;
2. Long press , and then choose typewriter tool , or textbox tool , or callout tool ;
3. Tap  to choose the font, font size, font color, and font opacity. If you need to keep the tool selected to add commenting markups continuously, tap ;
4. Tap the area on the document where you want the text comment added to;
5. Input the text as desired.

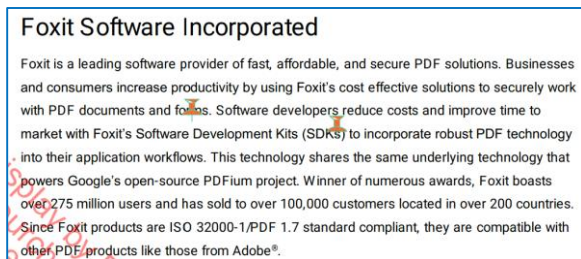

Add a Note Comment

1. Tap **Comment** on the toolbar;
2. Tap ;
3. Tap  to choose the note icon, fill color, and opacity. If you need to keep the tool selected to add notes continuously, tap ;
4. Tap on the document where you want to add the note comment;
5. Input the comment in the pop-up window;
6. Tap **OK**.

Note	
foxit software	
CANCEL	OK

Add a File Attachment

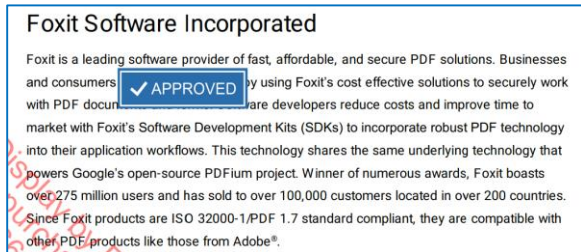

1. On the document pane, tap **Comment** on the toolbar;
2. Long press , and then choose the  attachment tool;
3. Tap  to choose the style, fill color, and opacity of the attachment icon. If you need to keep the tool selected to add files as comments continuously, tap ;
4. Tap on the document where you want to add the attachment;
5. Select one file, and tap **OK**.

Tip: The added files will be displayed as attachment icons in the document page, you can open them by tapping the file attachment icon directly.

Add a Stamp

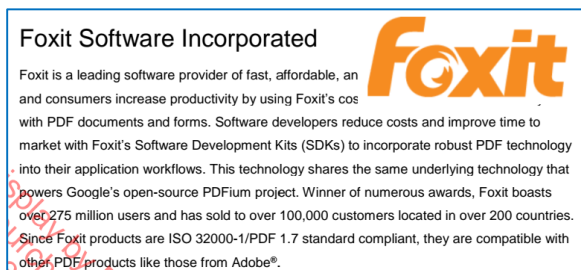

1. Tap **Comment** on the toolbar;
2. Long press , and then choose the  attachment tool;
3. Select a stamp from the preset list. If you need to keep the tool selected to add stamps continuously, tap ;
4. Tap on the document where you want to add the stamp.

Tip: From version 7.1, it supports to rotate the stamp in 360 degree.

Add an Image

1. Tap **Comment** on the toolbar;
2. Long press , and then choose the  image tool;
3. Select an image from Files, Album or Camera;
4. Tap  to choose the rotation and opacity as desired;
5. Tap on the document where you want to add the image.

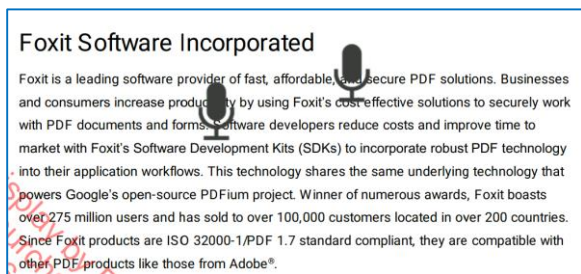

Measure Distance

1. Tap **Comment** on the toolbar;
2. Tap ;
3. Tap  to choose the scale ratio, color, linewidth and opacity. If you need to keep the tool selected to measure distance continuously, tap ;
4. Drag over on the document to draw a line, and then tap it again, the measurement will appear on the first point.

Add an Audio

1. Tap **Comment** on the toolbar;
2. Long press , and then choose the  audio tool;
3. Tap on the document where you want to add the audio. On the pop-up window, choose "Document" or "From Album" to select an existing audio file, or choose "Recording Audio" to start recording a new audio. If you need to keep the tool selected to add audios continuously, tap .

Note: If you choose "Recording Audio", you should tap "Allow" on the pop-up "Allow complete_pdf_viewer to record audio" window before starting to record.

Add a Video

1. Tap **Comment** on the toolbar;
2. Long press , and then choose the  audio tool;
3. Tap on the document where you want to add the video. On the pop-up window, choose "Document" or "From Album" to select an existing video file, or choose "Recording Video" to start recording a new video. If you need to keep the tool selected to add videos continuously, tap .

Note: If you choose "Recording Video", you should tap "Allow" on the pop-up "Allow complete_pdf_viewer to take pictures and record video" window before starting to record.

Undo and Redo the Last Action

Simply tap  or  on the toolbar at the top while adding comments.

Exit the Comment Mode

Simply tap  on the toolbar at the top when in the comment mode.

Work on Comments

Change the Appearance of an Existing Comment

- For text markups/drawing markups/new text comments, tap the comment first, and then choose **Appearance** from the pop-up menu.
- For note comments: tap and hold on the comment first, and then choose **Appearance** from the pop-up menu.

***Tip:** Stamps are preset by Complete PDF Viewer. You cannot change the appearance of stamps.*

Resize a Comment (Drawing Markups, Stamps, Images, Audios and Videos)

Tap the comment first, and then drag any of the handles to resize it.

***Note:** For audio and video comments, you should long press the audio or video to select it, and then drag any of the handles to resize it.*

Move a Comment

- For drawing markups, new text comments and stamps, tap the comment first, and then drag it to the desired place.
- For note comments and attachments, tap and hold on the comment first, and then drag it to the desired place.

Flatten a Comment

- For text markups/drawing markups/new text comments and stamps, tap the comment first, and then choose **Flatten** from the pop-up menu.
- For note, audio and video comments, long press the comment, and then choose **Flatten** from the pop-up menu.

Select multiple comments

Tap **Comment** on the toolbar at the bottom, choose , and then drag to draw a rectangle area to select multiple comments.

Group multiple comments

Tap **Comment** on the toolbar at the bottom, choose , and then drag to draw a rectangle area to select multiple comments. In the pop-up menu, choose **Group** to group the selected comments, and then you can move/flatten/delete/reply the multiple comments at the same time.

Delete a Comment

Tap the comment first, and then choose **Delete** from the pop-up menu.

Note: For note, audio and video comments, long press the comment, choose "Delete" from the pop-up menu to delete the comment.

Tip: To Highlight, Underline, or Strikeout text, simply Press and Hold on any TEXT. To bring up the Annotation popup menu, just Press and Hold an empty area of a document.

Work with File Attachments

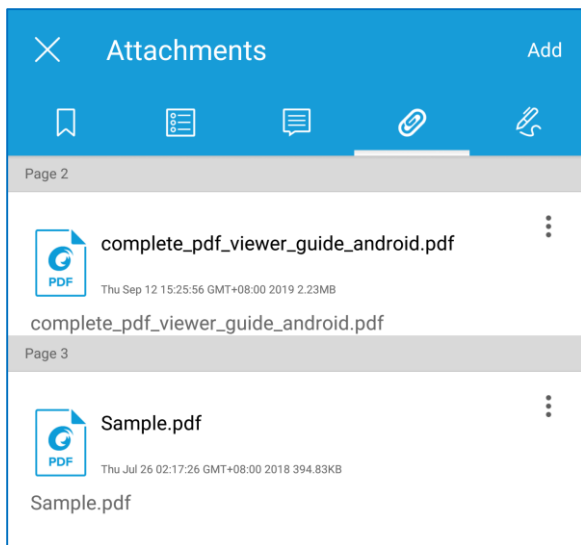

Complete PDF Viewer supports two kinds of file attachments: file attachment as a comment pinned in a specified location of the PDF document, and file attachment embedded in the PDF document. You can do the following with Complete PDF Viewer:

- [View a File Attachment](#)
- [Add a File Attachment](#)
- [Manage File Attachments](#)

View a File Attachment

If a PDF file contains file attachments, you can view the file attachments with Complete PDF Viewer by the following steps:

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the attachment pane;
3. Tap the attachment that you want to open.

Tips:

1. While viewing the file attachment, you can tap  on the toolbar at the top to return to the parent document.
2. Complete PDF Viewer allows you to view PDF, Microsoft Office, TXT, and image files attached in the PDF file. For file attachments in other formats, you can open it with

the supported application in your Android devices.

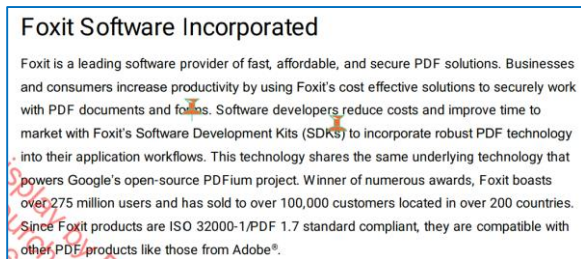

3. For the file attachments which are added as comments, you can also open them by tapping the file attachment icon directly.

Add a File Attachment

You can add a file attachment with Complete PDF Viewer in two ways: add a file as a comment to a specific location in the document and attach a file to the document.

Add a File as a Comment to a Specific Location in the Document

1. On the document pane, tap **Comment** on the toolbar;
2. Long press , and then choose the  attachment tool;
3. Tap  to choose the style, fill color, and opacity of the attachment icon. If you need to keep the tool selected to add files as comments continuously, tap ;
4. Tap on the document where you want to add the attachment;
5. Select one file, and tap **OK**.

Tip: Files added in this way will be displayed as attachment icons in the document page, and will also be displayed in the attachment pane.

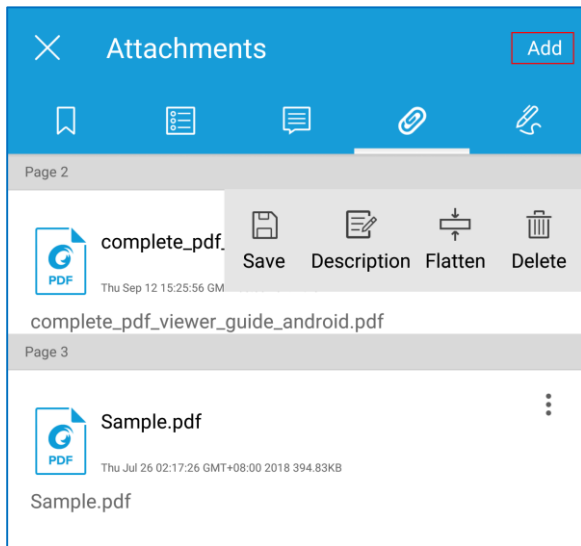

Attach a File to the Document

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the attachment pane;
3. Tap **Add**;
4. Select one file, and tap **OK**.

If you want to add a note to the file attachment, please follow the steps below:

1. Tap  besides the file attachment in the attachment pane;
2. Select **Description**;

3. Input the note as desired, and tap **OK**.

Tip: Files attached in this way are invisible in the page view, but you can find and open them in the attachment pane.

Manage File Attachments

Save File Attachment as a Copy

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the attachment pane;
3. Navigate through the list to find the attachment that you want to save as a copy;
4. Tap  beside the attachment, and tap **Save**;
5. Select the folder, and tap **OK**;
6. Input the file name, and tap **OK**.

Manage the Attachment Icon

For the file attachment pinned in a specific location of the document as a comment, an attachment icon will be displayed in the document.

- To change the appearance of the attachment icon: tap and hold on the icon -> select **Appearance** -> choose the option as desired;
- To move the attachment icon: tap and hold on the icon, and then drag it to the desired

place.

Flatten a File Attachment

1. On the document pane, tap **List** to open the navigation panel;
2. Tap  to open the attachment pane;
3. Navigate through the list to find the attachment that you want to flatten;
4. Tap  beside the attachment, and tap **Flatten**.

Tip: For the file attachment pinned to a specific location of the document as a comment, you can also flatten it by the following steps:

- Tap and hold on the attachment icon, and choose **Flatten** from the pop-up menu.

Delete a File Attachment

5. On the document pane, tap **List** to open the navigation panel;
6. Tap  to open the attachment pane;
7. Navigate through the list to find the attachment that you want to delete;
8. Tap  beside the attachment, and tap **Delete**.

Tip: For the file attachment pinned to a specific location of the document as a comment, you can also delete it by the following steps:

- Tap and hold on the attachment icon, and choose **Delete** from the pop-up menu.

Add Signatures

Complete PDF Viewer provides a simple but useful signing tool to let you sign a PDF document with your personal signature.

- [Create a Signature](#)
- [Sign a Document](#)
- [Verify a Digital Signature](#)
- [Edit a Saved Signature](#)
- [Clear a Saved Signature](#)
- [View Trusted Certificates](#)

Create a Signature

1. Tap **Sign** on the toolbar;
2. Tap ● to choose the color and thickness as desired;
3. Draw your signature in the pane; you can tap ✎ to remove the signature;
4. If you want to create a signature with a digital certificate, follow the steps below:
 - Tap **Select and add certificate**;
 - Select a certificate from the list, input the password, and then confirm it;
 - Tap **OK**;
5. Tap 📁 to save the signature.

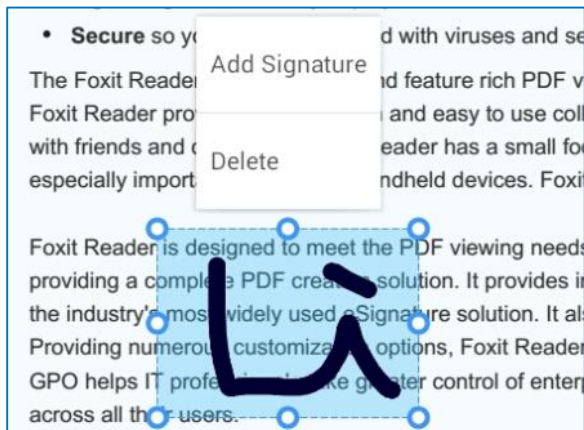

Tip:

1. If you have created and saved signatures previously in Complete PDF Viewer, you should tap **Sign** > **Signature List** > **Create** icon 📁 when you want to create a new signature.
2. To create a signature with a digital certificate in Complete PDF Viewer, you need to save the digital certificate on your device before creating the signature.

Sign a Document

1. Tap **Sign** on the toolbar;
2. Tap on the document where you want to add the signature to. If you haven't saved a signature on the device previously, the **Tap to create a new signature panel** will appear. Please follow the steps in [Create a Signature](#) to create a signature first;
3. If necessary, drag the corner handle to resize the signature, or drag the signature to move it to the desired location;
4. Tap **Add Signature** to apply the signature;

Tip: Once applied, the signature cannot be edited or moved. The signature and all other changes made to the document will be saved.

Verify a Digital Signature

If a PDF document contains a digital signature, you can verify the digital signature to ensure that it is valid. The steps are as follows:

1. Open the signed PDF document with Complete PDF Viewer;
2. Tap the digital signature, and then select **Verify Signature**.

Edit a Saved Signature

1. Tap **Sign** on the toolbar;
2. Tap **Signature List** on the toolbar at the bottom to open the **Signature List** panel;
3. Tap **:** beside the signature that you want to edit, and choose **Edit**;

4. Edit the signature in the pop-up panel as desired, and tap  to save it.

Clear a Saved Signature

1. Tap **Sign** on the toolbar;
2. Tap **Signature List** on the toolbar at the bottom to open the **Signature List** panel;
3. Tap  beside the signature that you want to delete, and choose **Delete**.

View Trusted Certificates

1. Tap  on the toolbar at the top, choose **Trusted Certificates** under the **Protect** group to view the current trusted certificates;
2. If you want to add new certificates, tap **Add** on the toolbar at the top, select a certificate from the list, input the password, confirm it, and then tap **OK**.

Work with Forms

Complete PDF Viewer supports both the AcroForms and XFA forms which include the following PDF form features:

- [Fill Out PDF Form](#)
- [Reset Form Fields](#)
- [Import and Export Form Data](#)
- [Create Form Fields](#)

Fill Out PDF Form

Fill in Interactive PDF Forms

1. Tap the fillable form field, and input the text; you can tap ⏪ or ⏩ to navigate through the form fields;
2. Upon completion, tap **Done** on the toolbar to save the PDF form.

The screenshot shows a mobile application interface for filling out a PDF form. At the top, there is a navigation bar with a back arrow, a bookmark icon, a search icon, and a menu icon. Below the navigation bar, the form content is displayed. It includes a 'Push Button' label next to a blue square with a white checkmark. Below that is a math problem: '5 + 9 = 14', where the numbers are in blue boxes and the operators are black. Underneath the math problem is a blue square with a white star. At the bottom of the form content, there are two text input fields. The first field is labeled 'Foxit Reader9' and contains the text 'Foxit Reader9'. The second field is labeled 'Foxit Reader2' and contains a list of text: 'Foxit Reader2', 'Foxit Reader3', 'Foxit Reader4', and 'Foxit Reader5'. At the bottom of the application, there is a toolbar with a back arrow, a forward arrow, a 'Reset Field' button, and a 'Done' button.

Fill in Non-interactive PDF Forms

You can use the **Fill** tools to add text and symbols in non-interactive PDF forms.

1. On the document pane, tap **Fill** on the toolbar at the top;
2. To add normal text, do the following:
 - Select Add Text tool  on the toolbar;
 - Tap on the document where you want to add the text, and input your text.
3. To add text in continuous boxes in a line, do the following:
 - Long press , select the Combo Field tool  on the pop-up menu;
 - Tap on the document where you want to add the text, and input your text.
4. To add predefined text (Name, Address, Date, etc.), do the following:
 - Follow the steps below to preset text first:
 - Select the Predefined Text tool  on the toolbar;
 - In the Predefined Text window, tap the text field to input your text.
 - (Optional) If you need to edit an existing text, tap **Edit** on the top right corner, and then tap on the text field that you want to edit to make your changes. Please note that the Date field is got and filled by your system date as default, and cannot be edited.
 - (Optional) If you need to add custom field, tap **Add custom field** at the bottom, and input the field name.
 - Tap Done to complete your editing.
 - Tap **Done** to complete your editing. Choose a predefined text in the Predefined Text window, and tap on the document where you want to add the text.
5. To add symbols, do the following:
 - Choose the Checkmark tool , Cross Mark tool , or Dot tool  to fill in check boxes, radio buttons, etc.
Tip: You need to tap and hold on  to access the Cross Mark tool or Dot tool.
 - Choose the Line tool , or Rectangle tool  to add a line or rectangle.
Tip: You need to tap and hold on  to access the Rectangle tool.
 - Tap on the place where you want to add the symbol.
6. After adding text or symbols, use the field toolbar floating above them to make appropriate changes, if necessary.
 - Tap  or  to decrease or increase the size. For lines and rectangles, you can also drag the handle to resize it.
 - To delete the text or symbol, tap .

- To move the text or symbol, drag it directly to the desired location.
- To replace the current text or symbol, tap  to choose an option as desired.

Reset Form Fields

- To reset the current form field, tap **Reset Field** on the toolbar at the bottom;
- To reset all the form fields, tap  on the toolbar at the top, and choose **Reset Form Fields** under the **Form** group.

Import and Export Form Data

To import form data:

4. On the document pane, tap  on the toolbar at the top;
5. Tap **Import Form Data** under the **Form** group;
6. Select the form data file (.xml file), and tap **OK**.

To export form data:

1. On the document pane, tap  on the toolbar at the top;
2. Tap **Export Form Data** under the **Form** group;
3. Input the file name;
4. Tap **OK**.

Create Form Fields

To create form fields:

1. On the document pane, tap  on the toolbar at the top;
2. Tap **Create Form Fields** under the **Form** group;
3. Choose  to create a text field; choose  to create a checkbox; choose  to create a radio button; choose  to create a ComboBox; choose  to create a ListBox; or choose  to create a signature field.

Note:

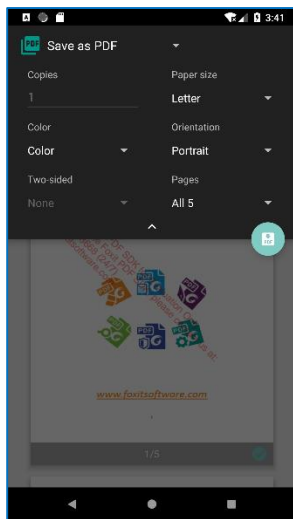

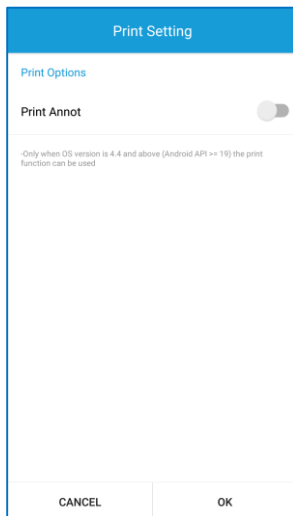

- By default, it is in continuous mode, so you need to click the button again after creating a form field, and then tap the created form field to edit it.
- From version 7.1, it supports to change the appearance of text fields and checkbox field. After creating a text field or a checkbox field, tap the current field button to exit the continuous mode, and then long press the created field, and choose **Appearance** from the pop-up menu.

Print PDF Documents

Complete PDF Viewer supports to print PDF documents from version 5.1.
